

Genoa, February 10.—The Grand Council has decided against the complete separation of Church and State.

London, February 10.—The following despatch was received here by the Reuter Telegraph Company. It is marked "Urgent," and was not delayed by censor at Madrid; it is therefore believed to have some foundation:

MADRID, February 10.—His Majesty King Amadeus manifests a disposition to abdicate the crown; in which case, he will resign his power into the hands of the Cortes. Madrid is quiet.

The *Correspondencia*, in its issue today, announces the probability that the session of the Cortes will be suspended for a few days, and upon re-assembling, the proposition from King Amadeus to abdicate the throne will be read in Congress. An effort will probably be made to dissuade the King from carrying out his purpose. Should he persist, a special law will be passed, electing a Regent and Cabinet. Other Madrid journals state that if the King should resign the crown, the present authorities will remain in office to watch the course of events; and it is believed all questions arising out of the abdication will be settled according to the Constitution, and without any disturbance. A Cabinet council was held last night, after which Senator Martos, Minister of Foreign Affairs, Senator Becerra, Minister of the Interior, and Senator Echeagary, Minister of Finance, had a conference with Senator Rivero, President of Congress. A conference also took place between Senator Corboda, Minister of War, and the principal military officers in Madrid. A large meeting of conservatives was held last night.

Bands of Carlists have made their appearance in the Province of Toledo. The Senate, by a vote of 59 against 6, passed a motion of conference in the ministry on the question of its course towards the artillery, with regard to the recent demonstrations of insubordination in that branch of the army. The Government has created an ordinance depot. The bill for the abolition of slavery in the island of Porto Rico will be taken up in Congress to-day for discussion.

The snow storm which prevailed here, yesterday, also extended throughout the Northern provinces, where the fall was very heavy.

The *Paris Bien Public* says that a compromise has been effected between President Thiers and the Committee of Thirty. The latter agree to modify their constitutional project by extending the veto power of the executive so as to allow the President to suspend the operation of a law by his veto after its passage by the Assembly, and also by giving the President the right to participate personally in debate in the Chamber, on interpellation and all the questions of general policy. The legitimists and clerical journals are indignant at the concession of such uncontrolled powers, as they term them, to the executive. The deputies belonging to the conservative and moderate sections of the left in the Assembly refuse to sign their names to the address of sympathy to Gen. Garibaldi, adopted at the last meeting of the extreme left.

The editor of a Posen newspaper has been sentenced to four months' imprisonment, for publishing an article entitled "The Battle with God's Church."

CHARLESTON, February 10.—Arrived—Steamships *Mercedita*, Boston; South Carolina, New York.

TORONTO, February 9.—Senator York, before the Legislative Committee, reiterates the statement that Senator Pomeroy paid him \$7,000 for his vote. It was a scheme to catch Pomeroy. Ingalls, Pomeroy's successor in the Federal Senate, knew nothing of the trap for Pomeroy.

PITTSBURG, February 9.—An adjourned meeting of the survivors of the Mexican war was held this evening, and a memorial to Congress was approved, which sets forth that almost a generation has now passed since the conquering column dictated an honorable peace with Mexico, and but few of the men who participated are left to ask bounty of the Government. That in view of the benefit derived by the nation through the acquisition of California and New Mexico, they ask Congress to grant a pension commensurate with the results, springing from their services and achievements; that as these provinces were acquired from Mexico for the sum of \$50,000,000, added to the cost of the war, and this heritage was fought for by private soldiers for seven dollars per month, they appeal to Congress to remember them in their declining years.

WASHINGTON, February 9.—The rule in counting the votes of the electoral colleges in joint convention of Congress is, that upon objection to any vote, the Senate shall repair to its chamber, and each House shall consider the question. Unless the House concur, the vote shall not be counted. It is under this rule that the vote of Louisiana will probably be thrown out.

Some important movements of troops will soon be ordered by the War Department, the effect of which will be to take from the States of Kentucky, North and South Carolina, Alabama and Tennessee, and the greater portion of the United States, military forces stationed in those States, and to locate them at other points where the interests of the Government may require their presence. It is learned that there are no troops now under orders for service in Utah, and it does not appear that the department immediately contemplates sending the army any addition to the forces of the Government already serving in proximity to the Mormon country. A regiment will soon be stationed along the Rio Grande, on account of the troubles in that section. In other parts of the South, they will be gradually withdrawn.

It is believed that nearly all of the Ku Klux prisoners who are confined in

prisons will be pardoned within a very short time, and particularly those of the more ignorant class convicted for crimes of that character. The Government will, however, prosecute vigorously all new instances of Ku Klux prosecution, and should additional cases arise, the Executive and Department of Justice would regard with great disfavor all appeals for mercy or leniency.

OTTAWA, February 10.—The Pacific Railway charter has been duly signed.

NEW YORK, February 10.—Fully 20,000 persons honored the remains of Dr. Starra, yesterday, with a last look. Last night was the coldest of the season.

The German journeymen, at a meeting, last night, took preliminary steps for an eight hour strike. The movement embraces nearly all branches of workmen.

The appropriation of \$4,000,000 for the Post Office building being exhausted, the work has been stopped.

Colonel Augereau stated, at his reception, yesterday, that he had a ship and arms ready for Cuba. The point of departure was not stated.

The funeral ceremonies of the late Vice-General Starra took place to-day, at St. Patrick's Cathedral. The church was draped in black, and was crowded to almost suffocation. A Pontifical high mass was celebrated by Archbishop McCloskey, and the funeral oration was preached by Bishop Laughlin, of Brooklyn.

CINCINNATI, February 10.—The tow boat *Petrel*, it is reported, struck a log. The captain swam ashore, but was chilled to death; seven others were lost.

WASHINGTON, February 10.—The Committee on Privileges and Elections have made a report as foreshadowed regarding the electoral vote of Louisiana. It contains condensed statements of the facts elicited. Morton and Trumbull each present an addenda; but they are merely different views of courts.

CHICAGO, February 10.—Henry W. Biglow, a well known wealthy man, committed suicide.

Probabilities.—The low barometer over Wisconsin will move Eastward into Canada, accompanied by brisk and high winds; from the Ohio Valley to the upper lakes and North-west, on Tuesday, fresh and brisk and probably high Westward to Northern winds; falling temperature and clear and clearing weather, accompanied by probably areas of light snow over the upper lake region. For the Middle States, fresh and brisk winds, increasing possibly to high, over the lower lake region, and gradually veering to Southerly and Westerly; rising temperature and cloudy weather. For the South Atlantic States, fresh Southerly to Westerly winds, and generally cloudy weather. For the Gulf States, East of the Mississippi, winds veering to Southerly and Westerly; cloudy weather and possibly areas of light rain.

The President has approved the bill for eight war sloops. The senatorial caucus to-day showed an indisposition for an extra session. A committee was appointed to arrange the order of business.

In the Senate, a bill making appropriation for public buildings in Petersburg, W. Va., passed. Machen was seated as successor to Garrett Davis. A bill extending the Southern Claims Commission to 1876, passed. Other amendments were offered, when the matter went over. The distribution of the Alabama award was resumed and passed.

In the House, a large number of bills were introduced and referred. The bill increasing the salary of the President and other officers was lost—yeas 81; nays 119.

HAYANA, ILL., February 10.—The boiler of Yates Bros.' agricultural works exploded to-day, killing both proprietors.

ATLANTA, GA., February 10.—Governor Smith sent a special message to the Legislature, to the effect that \$2,567,435 must be provided for the current year, to meet bonds falling due and to pay interest on the public debt.

IMMENSE LOBBY SCHEMES.—Washington correspondents of the New York papers have coupled with the cotton tax refunding scheme a report that a movement is on foot among the lobby at the Capitol to get the General Government to assume the debts of the Southern States, since the reconstruction laws took effect. A correspondent of the *Sun* says:

These two schemes—the assumption by the General Government of the carpet-bag debts of the Southern States and the refunding of the cotton tax—involve over \$200,000,000. The former, of course, is being pushed, not by the Southern people, but by Northern capitalists, who have invested in the bonds issued by the carpet-bag governments of the Southern States. The most of these, it will be remembered, sold away below par; some of them at only a few cents on the dollar. If the holders of them can procure the legislation they desire—making the General Government responsible for the payment of these securities—it, of course, will at once send them up above par, for the most of them bear exorbitant rates of interest.

An estimate made by the Postmaster-General shows that during the last year there were sent through the mails 800,000,000 of copies of daily newspapers, 600,000,000 of weeklies, and 100,000,000 of monthlies and other publications. The aggregate is 1,500,000,000 copies, upon which the legal postage collectable amounted to \$2,292,307. The department, however, only got \$985,940, so that over \$1,250,000 was either not collectable or lost in some unexplained way. The printed matter, which thus returned less than \$1,000,000 weighed more than twenty times the aggregate letter mails transmitted during the year, although the latter paid nearly \$19,500,000.

THE TROOPS IN THE SOUTH ORDERED TO UTAR.—We are informed in a telegram from Washington that the President has ordered the United States troops now in the South to hold themselves in readiness to move out to the plains, near Salt Lake City. This will be truly a move in the right direction. The civil power in Utah being unable to enforce obedience to the laws, it is time that the military were called to its aid. All Mormonism will, doubtless, cry aloud, and wax wroth at this decisive action of the President, but the saints may take comfort in the reflection that their grief will be spared by the carpet-baggers, who will now have to stand alone among the reconstructed chivalry. [New York Herald.]

MURDER IN EDGEFIELD.—A citizen of Edgefield who arrived in town to-day, states that R. C. Cleary, a white citizen, living at Coleman's Cross Roads, in Edgefield County, visited the County seat to pay his taxes. While there, he became intoxicated and visited Clisby's drug store. It is also stated that a difficulty arising between Clisby and himself, the former picked up a weight and threw at Cleary, who went for him with a knife, when Clisby picked up a two-pound weight and broke in his skull. Cleary is not expected to recover. [Evening Herald.]

DEATH OF FRANCIS WARDEN.—Francis Warden, aged sixty-seven years, died in Paris, France, January 23d. Mr. Warden was for thirty years the partner of A. T. Stewart, of New York, residing in Paris and purchasing for the firm. Mr. Warden commenced business in Boston, but failed in 1837, and was recommended to Mr. Stewart as a salesman. His ability soon obtained for him a partnership in the house, and he was sent to Europe to do the purchasing for it. He leaves a fortune estimated at \$10,000,000. His wife died just three days previous to his death.

A farmer in Olmstead County, Minn., reports that the snow drifted from the prairie, burying a belt of willows that surrounded his house and stables. These willows are from fifteen to twenty feet high. It accumulated in his yard and on the buildings to such an extent as to cover his stables, he says, to the depth of fifteen feet. His house was not buried so deeply. It took him forty-eight hours to reach his horses, which were in the stables, and he did it by tunneling under this drift to the stable door. He found the stock all right and comfortable, but anxious for fodder.

We are told of the death of an American, named Roberts, in London, leaving a fortune of \$900,000. When his father set him up in the second-hand clothing business, in which he made his money, he was advised by that father "never to let his expenses exceed 8s. 6d. per week." He adhered to the advice, and one of his last struggles was an attempt in his seventy-second year to live on a diet of horse chestnuts. It was a failure, and he went to join his revered ancestor in a place where the weekly expenses are still less.

INQUEST.—The Aiken Journal gives an account of an inquest held by Coroner F. L. Walker, in Windsor township, Hatcherway Dam, on Tuesday last, on the body of the infant of Martha Turner, colored. The verdict was that the child came to its death from wounds inflicted by an unknown person. A colored man named Cain Turner was arrested, but discharged by Trial Justice Hall, the evidence against him being insufficient.

There is a gleam of light in the Louisiana political chaos. It is thought that enough candidates for the Legislature to form a constitutional quorum have received the endorsement of both returning boards. If this is the fact, a solution of the difficulty is possible. The organization of such a quorum of the State Legislature would give a certain nucleus around which a State Government worthy the name might form.

REMOVAL OF OBSTRUCTIONS AT CHURCH FLATS.—The Beaufort Republican says Gen. Gilmore has removed the obstructions at Church Flats, which have heretofore impeded the navigation of the inside route from Charleston to St. Helena. He took out 500 tons of live oak logs and many piles. Any vessel which can get through Wapoo can now come over Church Flats.

There recently died in London a newspaper reporter who had devoted himself for thirty years to the single department of writing up fires. Let us hope that he has gone to a world where there are no fires to write up. However, in that case we can't imagine what the poor fellow is to do for employment.

Mr. Thomas R. Dorsey, a well-known and much respected merchant of Baltimore, was drowned some time during Wednesday night, having fallen into the water at the foot of Frederick street. His body was found floating in the dock early Friday morning.

The verdict of the coroner's jury, in the case of Thomas P. Rose, of Lewisville, Orangeburg County, was that he came to his death, on Friday night last, from congestion of the brain and lungs, superinduced by the too frequent use of malt liquors.

A Mr. Clapp, of Guilford County, N. C., was seen to eat one dozen hard-boiled eggs, then sucked forty-four, and then bet three dollars he could suck forty more, and twenty more were given and he shelled them on top of the dose.

The two-and-a-half-story wooden residence at the corner of Smith and Beaufort streets, Charleston, occupied by Mr. Job Dawson and family, was partially destroyed by fire on Sunday morning. Fully insured.

"Rumor has it that there is some probability that Senator Sawyer, of South Carolina, will be called into President Grant's Cabinet."

The ladies of Belleville, Ill., have canvassed their town and alleviated all cases of suffering they could. They were obliged to marry off thirteen disconsolate old bachelors before their task was completed.

The difference between defaulting revenue collectors in Tunis and in this country, according to the Louisville Courier-Journal, is, that in Tunis they are impaled on stakes, while here they usually walk off with the stakes.

The bodies of two of the colored women, Silvia Dawson and Flora Toomer, who were drowned in Cooper River, opposite the Hagan plantation, a short time ago, have been recovered.

There is no scheme on the public treasury too bold; and the latest is to induce Congress to assume the debts of the Southern carpet-bag governments. This involves only a matter of \$125,000,000 or so; but it is gravely talked of in Washington as being a magnanimous thing to do. We are not so certain whether this astonishing effrontery is expected to win at last, or only to "bull" Georgia bonds and the like now.

ARMY APPROPRIATION BILL.—On Friday last, the army appropriation bill was reported in Congress from the Committee on Appropriations. It appropriates \$30,000,000. Among the items of the bill which will probably be adopted is \$60,000 for Gatling guns, the purchase of fifty of which is recommended by Colonel Benet, of the Ordnance Department.

A pleasing little instance of luxurious pauperism is furnished by a family in Norwalk, Conn. It consists of five persons, who together spend \$8.50 per week for opium, and apply to the town authorities for coal and bread and butter. The most economical way would be for the town to vote this beautiful family opium enough to kill off the whole interesting circle.

Three new murders, since 1 o'clock yesterday afternoon! A jealous husband wreaking his vengeance on his wife, a hot-headed boy killing his playmate after a childish quarrel, and a laborer brutally assaulting another in Hoboken—such is the startling array of crime for the last twelve hours. Where is all this to end? [New York Tribune, 8th.]
